

CANDLE BURN TEST SHEET

by HOUSE OF SCENT

REMINDERS BEFORE BURNING

- Ensure your candle has fully cured
- Choose a suitable location away from draft
- Trim the wick to around 5mm before each test burn
- If burning more than one candle at a time, allow at least 10cm of space between each candle
- For scent throw - ensure only one candle is burning in your room at once and do not place any doorways, windows or where there may be drafts
- Never leave burning candles unattended
